WHAT IS ALL STAR CHEER?

First and foremost, All Star Cheerleading is FUN. Competitive cheerleading is a sport that drives athletes to discover the limits of their own abilities and push through these limits when possible. Cheer builds athletic skills such as tumbling, jumps, and flexibility in addition to confidence, self-esteem with a strong emphasis on team building skills which can be used for life! Cheer programs are available for youth of all skill levels ages 5-18 (athlete must be age 5 by March 1, 2023). Teams are formed based on age and skill level through a process called placements. Each cheerleader who attends placements will be placed on a squad best suited for their age and ability. There are only two reasons why a child would not be placed; if there are not enough girls to form a squad and/or if there are disciplinary/behavior issues during placements. If you are interested in joining our competitive cheer team, you must attend placements.
